

Minutes of Dashwood Hall Meeting held on August 26, 2015

Those attending were – D. Read, B. Petten, Dave Domes, Jeanette Domes, H. Foster, M. Foster, F. Gibbons, A. Batham.

The sixty four surveys concerning the hall options that had been completed and returned were briefly discussed . It was agreed that that number of returns signified community interest in the hall.

After discussion it was decided that **Hazel Foster** will follow up on obtaining information from Wendy Marshal or her successor about the availability, size and cost of moving and installing Portables previously owned by the local school boards and now in the possession of the RDN. She will also look at the Portables which were bought from the RDN and are now in Errington, take photos of them inside (if possible) and outside.

Bill Petten will contact the Quebec Steel Building Company to ask for specific details from them regarding cost for various sizes of buildings – 25ftx60ft or 30ftx60ft or 30x70ft (this extra space for increased storage space would be useful) or 30x100ft. The present hall is approx. 25Ftx36ft.

Jeannette Domes as part of the Steering committee's fund raising for the support of the hall will organise a Fall Festival ready for a suggested date of Sunday October 25th.
